

Otago College's University Evening Programme

Otago College is proud to host our very first University Evening.

This evening will include the opportunity for students/parents to learn more about the different programmes available at Universities across New Zealand.

The evening will start with an expo in school hall, where different Universities, Polytechs as well as support services will be on site, to answer any general questions.

From 6:30pm, we will be hosting presentations from different programmes. This will be your chance to learn more about programmes, more importantly meet the academics from Universities.

It would be a good idea to plan the three sessions you would like to attend to before the day.

General Information:

When: Thursday, 5th July, 6:00pm - 8:30pm

Where: Otago College, M block and School Hall

Time: School Hall expo – open from 6:00pm -7:30pm

Presentation Sessions: (There will be a 15-minute break in between sessions)

- 6:30 – 6:55pm
- 7:10 – 7:35pm
- 7:55 – 8:15pm

Parking: Parking out front has been reserved for presenters. Parents/Students to park at back via Golf Road.

Audience: Highly recommended for all Senior Students to attend. However, junior students/parents are more than welcome to attend.

SCHOOL HALL – Open from 6:00pm -7:30pm

Jeff will share his very personal non-linear journey from high-school dropout to businessman to academic and whatever lies ahead. He will talk about exploring options, without limiting yourself, while taking advantage of all the people who are keen to assist you on your journey ... and it is YOUR journey! You'll also learn about the key personal characteristics deemed most important by potential employers and how to sell yourself to the great world just waiting at your doorstep. Be a part of an	Dr. Jeff Stangl

			informational evening certain to be inspirational, aspirational, and transformational!	
M23	Massey University	Food Technology	Massey University's Food Technology degree programme is the only degree in New Zealand that combines food science, food engineering and food business. New Zealand's largest export industry is crying out for more qualified graduates, over 75% of our graduates have jobs within six months of graduating. In this degree you will learn how to apply science and engineering to the development and processing of exciting, great tasting new few products that are also safe and nutritious.	Marie Wong
M24	Waikato University	Bachelor of Law	Study in one of the top 200 Law schools in the world. Lawyers and judges will be involved in teaching and assessing your law assignments and will provide you with valuable feedback. This sort of contact with the profession will stand you in good stead when you come to apply for a full-time job.	Gina Roberts
M25	University of Auckland	Bachelor of Arts – Maori & Pacific Success in Faculty of Arts	Dr Hirini Kaa is of Ngati Porou, Ngati Kahungunu and Rongowhakaata descent. Hirini has worked in a range of areas including in the social services sector, for the Anglican Church and for his iwi. A recent recipient of the prestigious Marsden Award, Hirini is currently undertaking a project 'The Young Maori Martyr: Leading Iwi into Modernity' while also working as Kaiarahi in the Faculty of Arts at the University of Auckland.	Dr. Hirini Kaa
M26	Massey University	Aviation	Introducing students to the huge opportunities in the aviation industry- both in NZ and overseas. These opportunities include both flying but even more so in ground-based roles such as airports and airlines. Come by and hear all about the School of Aviation's exciting programmes Bachelor of Aviation- Air Transport Pilot (B.Av) and the Bachelor of Aviation Management . I will talk about the fantastic employment outcomes for both programmes- including the cadetship opportunity with QantasLink for our B.Av graduates. I look forward to meeting you all soon.	Anke Smith

Session 3 Presentation: 7:55: 8:15pm

Classroom	University	Programme	About Programme	Presenter
M16	Otago University	First Year Health Science And other Programmes	Health Sciences First Year (HSFY) is a foundation year for the five professional programmes: Dentistry, Medical Laboratory Science, Medicine, Pharmacy, and Physiotherapy. It is also an excellent way to begin a degree in biomedical science or any of the broad range of biological sciences at Otago.	Kitona Pasena
M17	AUT	Health Science	AUT is one of the biggest health science education providers in New Zealand. When you study here you'll get experience working with real people through industry work placements. You'll also work in our health clinics on campus, which offer services to the public like physiotherapy, oral health, podiatry and more.	Helena Founa
M18	Massey University	Nursing	Massey's School of Nursing works closely with District Health Boards and health organisations in New Zealand and around the world to improve the health of people and their communities. Ranked number one in New Zealand in the most recent 2012 Performance-Based Research Funding rankings for research excellence. High-quality programmes taught on all three campuses. Highly-experienced and supportive staff at the forefront of research, teaching and leadership.	

M19	University of Auckland	Science	With so many options to choose from, the Bachelor of Science degree (BSc) is your opportunity to create a good foundation for your study in the Earth, Chemical, Computational, Human, Life, Mathematical and Physical Sciences.	Sharon Talavave
M20	Massey University	Engineering	Every year you will work on projects that will give you a real feel of what engineering involves, and the skills that distinguish you from the rest. Our practical learning environment, combined with spending at least 5 months in industry will set you apart from an employer's perspective. Engineering NZ accreditation of our engineering programmes ensure Engineering graduates are widely accepted around the world.	Dr Fakhru Alam
M21	Massey	Defence and Social Science	There's increasing demand for defence professionals, both military and civilian. Employers are looking for people with the intelligence, initiative and determination to work in a wide range of complex defence environments. You could work not just for the military, but also in areas such as public education, peacekeeping and intelligence. Our graduates are employed in a broad range of areas: <ul style="list-style-type: none"> • Civil defence and disaster relief • Diplomacy and conflict resolution • Journalism and the media • Politics • Foreign affairs and trade • Law enforcement 	Dr. Rys Ball
M22	Waikato University	Tourism	This subject will prepare you for an exciting global career managing tourism or hospitality businesses or events, in an industry that's focused on finding out what visitors want, and satisfying their needs. It's your ticket to work anywhere in the world!	Chris Ryan

			<p>You might even decide to become an entrepreneur and start up your own tourism or hospitality business. The industry encompasses hotels/resorts, cruise ships, sport and leisure operators, restaurants, cafes, bars, theme parks, entertainment, arts and cultural attractions, special events, and much more.</p> <p>In the global report issued by QS Rankings, the University of Waikato Management School was ranked globally as 27th for Recreation, Hospitality and Tourism for 2017, and on the academic criterion of citations per paper published it was published 9th globally.</p>	
M23	University of Auckland	Bachelor of Global Studies	<p>Dr Hilary Chung has always been fascinated by the way in which language knowledge enables people to connect and has spent her academic career working comparatively across cultures. Building the Global Studies programme has enabled Dr Chung to draw on this experience to create learning experiences that will enable you to make connections across the globe – and prepare you for a wide range of career opportunities. This degree will deepen your understanding of the links between local experience and global issues. You'll explore new ways of thinking about the world. You'll also gain competency in another language and insights into a region where your chosen language is spoken.</p>	Dr Hilary Chung
